**Fastening products**

In addition to buttons, tapes and other fasteners used in clothes and bags, we provide a wide variety of fastening products that are used not only in clothing, but also for a wide range of applications, from shoes and bedding to medical goods and industrial materials.

**Machinery and engineering**

Fulfilling the needs of elemental technology and research and development, we concentrate the technology and expertise that we have cultivated over decades to provide the YKK Group's unique production machinery, systems, dies and other equipment to our plants around the world.

**Residential architectural**

We seek to provide people with greater comfort and new amenities for their lifestyles by providing a variety of products, from door sashes to exterior and outer building materials, made from aluminum, wood, resin and other basic elements, while pursuing the enhancement of fundamental features, and a rich variety of color, design options and functionality. Furthermore, we endeavor to provide appropriate responses to needs for barrier free architecture, insulated environments, recyclability and other new demands.

**Building architectural**

Using our unique total vertically-integrated manufacturing system, global reach and the deep expertise that we have cultivated through numerous big projects, we provide thorough architectural service, from the development of components to manufacturing, construction and after-service for structures ranging from small and medium buildings to skyscrapers.
