

YKK Suspends Operations in Russia and Offers Humanitarian Assistance

Tokyo, Japan (March 14, 2022) – YKK Corporation is deeply concerned about the people who are suffering in Ukraine, and we fervently wish for a return to peace and stability as soon as possible.

YKK will suspend production and sales of fasteners in Russia after assessing the situation from a “fair” perspective, which is also stated in our management philosophy, and due to the various difficulties involved in continuing our business activities.

In addition, we will actively work to provide humanitarian assistance to those who have been forced to flee their homes.

We pray for a rapid return to peace and safety for all people.
